

Bravida acquires E3K, thereby strengthening its position in Stockholm

Bravida is acquiring E3K and thereby strengthening its range of comprehensive services in Stockholm in the areas of installation, service, automation, electrics, HVAC, heating and plumbing, and property management. E3K currently has sales of around SEK 165 million and 100 employees.

E3K was founded in 2005 and today operates in the fields of automation, electrics, ventilation, heating and plumbing. The business specialises in holistic services for installation work, property management, and service and technology provision. Other areas of expertise include taking an overarching approach and ensuring smooth interaction between the various systems in buildings.

“E3K is a company that is very much in line with Bravida’s strategy of providing services to the property industry that we take responsibility for the entire life cycle of technical installations. We will create a strong winning team offering an even greater range of services for the market in the Stockholm area,” comments Lars Täuber, Head of Division Stockholm.

Roger Blomkvist is the current CEO of E3K, and he will continue to lead all the existing business activities in the role of Regional Manager. He comments about the sale:

“I am convinced that E3K and Bravida will develop very well together. The combination will provide many new business opportunities and all our existing customers will continue to receive the same excellent service as before.”

E3K is currently based in Danderyd and Årsta in Stockholm, and will initially continue to operate from its existing premises. Bravida will take over as the new owner on 31 May 2021.
